Subject: FW: CFTF funding

Jason,

Here is the last funding that went to the Clark Fork River Task Force outside of the State Water Planning process.

The last funding the CFTF received from the state was a \$63k RRGL grant in 2013. The legislature funded it in HB6. WRD entered into a contract with CARDD to manage the funds.

The Task Force also received a \$70k RIT grant in 2009. WRD entered into a contract with CARDD to manage the funds.

Let me know if the committee has other questions.

Thanks,

Tim
